

HRISHIKESH BHANDE

Software Developer | Web Developer | Data Analyst

✉ hrishikeshbhande2006@gmail.com | ☎ 9373798447 | [LinkedIn](#) | [Portfolio](#)

CAREER OBJECTIVE

Computer Science & Engineering student specializing in AI/ML, with hands-on experience in full-stack web development, data analysis. Completed a Diploma in Computer Engineering with 94% and currently pursuing B.Tech. Proven ability to build production-ready applications through internships and hackathon projects. Seeking a role to contribute technical expertise and problem-solving skills to innovative, growth-focused technology teams.

TECHNICAL SKILLS

Languages: C/C++, Java, Python, JavaScript, SQL, HTML, CSS

Frameworks & Libraries: React.js, Next.js, Node.js, Express.js, Tailwind CSS

Databases: MongoDB, SQL, DBMS

Tools & Platforms: Git, GitHub, Power BI, Figma, VS Code, Vercel, Render

Concepts: OOPs, REST APIs, DBMS, Machine Learning, Data Analysis, Agile, Role-Based Auth

INTERNSHIP EXPERIENCE

Data Analyst Intern — SuperSapiens Devlab Pvt. Ltd.

Duration: 8 Weeks

- Implemented end-to-end data analysis pipelines by designing interactive Microsoft Power BI dashboards to visualize key business metrics.
- Collaborated cross-functionally with teams to translate raw datasets into dynamic, stakeholder-ready dashboards for data-driven decision-making.
- Utilized Figma to prototype dashboard UI/UX layouts, ensuring professional visual design before development.
- Presented analytical findings and insights in team discussions, demonstrating strong communication and problem-solving abilities.

PROJECTS

Eventra - Digital Event Vendor Marketplace | Node.js, Express, React, MongoDB, Tailwind CSS, Vite | [Live Demo](#)

- Developed a full-stack MERN web application enabling users to discover, book, and manage event services with role-based authentication.
- Engineered RESTful APIs using Node.js and Express for service listings, booking management, real-time chat, and media uploads.
- Designed a responsive React frontend with Tailwind CSS, delivering a seamless cross-device user experience.

Eventflow - Unified Campus Fabric | React, Node.js, Express, MongoDB, Material UI | Hackathon: Alphabyte 3.0 | [Live Demo](#)

- Built a full-stack campus event management platform supporting event discovery, registration, multi-round tracking, and attendance for students and organizers.
- Implemented role-based authentication (Student/Admin) with OTP and Google OAuth login for secure access control.
- Developed certificate generation and public verification module along with admin analytics dashboard for platform oversight.

HeartGuard - Cardiac Monitoring & Reporting Application | React, Python, REST API

- Built a full-stack cardiac monitoring application using React and Python to process patient heart data and generate automated clinical reports.
- Implemented secure REST APIs for data submission, streamlining clinician workflows and reducing manual documentation effort.

GovNitiChain - Blockchain-Based Welfare System | Next.js, TypeScript, Solidity, MongoDB, Ethers.js | Hackathon: Velora | [Live Demo](#)

- Architected a decentralized welfare platform using Ethereum smart contracts (ERC-20, Solidity/Hardhat) to eliminate fraud in government subsidy distribution.
- Implemented Aadhaar-linked wallet verification and SHA-256 hash-chaining ledger for tamper-proof transaction tracking and duplicate claim prevention.
- Developed role-based dashboards for government admins, agents, and citizens with real-time analytics, audit logs, and MetaMask-based on-chain claims.

EDUCATION

B.Tech — Computer Science & Engineering (AI/ML)

Pimpri Chinchwad College of Engineering, Pune

2025 – 2028

Diploma — Computer Engineering (94%)

Pimpri Chinchwad Polytechnic, Pune

Passed: 2025

SSC (10th Standard) — 92.60%

Kids Cambridge School

Passed: 2022

CERTIFICATIONS & ACHIEVEMENTS

- C Programming — 72.50% | Spoken Tutorial Project, IIT Bombay
- C++ Programming — 85% | Spoken Tutorial Project, IIT Bombay
- Java Programming — 77.50% | Spoken Tutorial Project, IIT Bombay
- Database Management Systems (DBMS) — Elite Silver 75% | NPTEL
- Hackathon: Alphabyte 3.0 — Built Eventflow (Campus Event Platform) in 24 hours
- Hackathon: Velora 1.0 — Built GovNitiChain (Blockchain Welfare System) in 24 hours
